Executive Summary & Venture Blueprint

Bantaba is a diaspora-first, cash-first remittance operating system designed specifically to serve key West African migration corridors. Unlike digital-first fintech platforms that rely heavily on consumer mobile apps and bank account access, Bantaba anchors on trusted physical cashier counters at origin hubs and dense local payout networks across destination markets.

> **Core Thesis:** Senders in key global commercial hubs (Guangzhou/China, London/UK, New York/USA) hand cash to authorized Bantaba counter agents, receiving a single-use 10-digit redemption code. Recipients redeem cash instantly or receive local wallet payouts across The Gambia, Senegal, Mali, Guinea-Bissau, and Guinea-Conakry.

1. Market Scope & Corridor Strategy

Corridor	Origin Cash Desks	Destination Payouts	Primary Target User Segment
China ➔ West Africa	Guangzhou, Yiwu, Shanghai trading hubs	Gambia, Senegal, Mali, Guinea	Traders, wholesale buyers, logistics agents
UK ➔ Senegambia	London, Birmingham, Manchester desks	Gambia (GMD), Senegal (XOF)	Healthcare workers, hospitality staff, students
US ➔ West Africa	New York, Atlanta, Seattle partner counters	Guinea-Conakry, Bissau, Mali	Diaspora family support, trade financing

2. Key Differentiators & Unit Economics

- **Zero Consumer App Friction:** Neither sender nor recipient is required to download an app or maintain a bank account.
- **Transparent Flat-Fee Model:** Fixed counter fee + 1.0% FX spread margin vs 6–8% legacy market averages.
- **Instant Sub-60-Second Settlement:** Real-time double-entry ledger posting and pre-funded vault float ensure instant payout readiness.

3. Monetization Model (Per $200 Remittance)

Line Item	Rate / Fee	Amount ($)	Description
Counter Fee	1.5%	$3.00	Collected at origin desk
FX Spread Margin	1.0%	$2.00	Bantaba treasury yield
Gross Revenue	**2.5%**	**$5.00**	**Gross margin per $200 transfer**
Paying Agent Commission	(0.8%)	($1.60)	Payout desk commission
Net Margin	**1.6%**	**$3.20**	**Retained operational margin**
